

## Town of Herman Policy on Snow Removal and Sanding at Area Churches

For those churches which use "On-street Parking", the Board approves snow removal from the on-street parking areas. The Town will not plow off-street parking lots.

If a church parking lot has been cleared of snow, but is ice covered, the Board approves the application of sand by the Town's plowing contractor while the contractor is on his "normal" route. Special trips for this purpose are not approved.
