The annual town meeting is a meeting of the town's electors, with those present comprising the body that is meeting. § 60.14(1). A qualified elector is someone eligible to vote in the town per Ch. 6 of the state statutes but he or she does not have to be a registered voter. Any qualified elector present may make or second motions, participate in discussion of a matter and vote. All actions are decided by a majority of the electors present and voting. The chair may recognize people who are not qualified electors and let them speak to the assembly but such people cannot make or second any motions or vote. Section 60.10 of the State Statutes lists the vast majority of annual town meeting powers that can be acted upon.
